- Modeled and tested different versions of a JavaScript mancala

Computer Software

- Cybrary A+
- Netacad
- Adobe Spark Pages
- Google docs and slides
- Google Classroom

Work Experience

Being the son of a small business owner I have...

- Set up and break down a kiosk at special events My Duties have included...
- Food prep and serving
- Leading a small team as a manager
- Cashiering, cleaning, and supporting roles
- Cable setup and management, and customer service

- Coordinating with coordinators of special events (ie. School Football Events, City Events, and Swim Competition Events)

Martial Arts/Athletics

Youth Basketball/Baseball/Soccer

- I have been a part of multiple leagues of these youth activities. I loved the teamwork and fresh air.

Martial Arts

- I have been under multiple teachers for most of my life. I enjoyed the physical strain of training, teambuilding, and safety of mind that comes with being able to defend myself.

Other Experience

Church Volunteer Work

- VBS (Vacation Bible School)
Volunteered for a week to help watch and manage activities for the kids.

Gencyber Camp

- One of my fourtunate activities that I was able to do was attend a Gencyber camp. This is a camp sponsored by NASA to 40 colleges in the U.S. to help get the youth interested and knowledgeable of this new field. It is a week long and they have multiple activities, and projects that we work on. This last time I went I built a raspberry pi that ran the software for a google home. Then I set up a firewall program with another raspberry pi using a linux OS.
